

In-House Cooking Classes

Perfect for singles, couples, birthdays, anniversaries, and bachelorette parties. Participants learn how to cook the foods they love to eat in a relaxing environment – their own home. Menus are tailored to suit participant tastes and skill levels, and instruction focuses on preparing a complete or multi-course meal. Cooking classroom rentals are available for bigger groups. "Will my kitchen be large enough?"

As long as you can put a cutting board down (in the kitchen or on the dining room table), as many times as there are students, you can comfortably learn to cook in your home kitchen. Depending on the layout of the cooking area, and menu, portable gas burners can be used.

One or two participants: \$275 (a series of three classes, \$675)

For groups up to six students: add \$85 each
